This allows its user to pull books of any topic. After 5 books have been pulled

- the user cannot pull another until they've returned one.
- after which time they can pull another.

Combat Tactics

Ronn talks down to opponents and avoids combat.

Actions

Factions

Motivations

To undermine scholastic systems and make learning a pragmatic, gig-based trade. To live a simple life without urgency.

Passions

Books. Trades. Teaching others.

Secrets

BACKGROUND STORY

While there is little known about their origins, Ronn appears as a middle-aged adult human male. Yet there are numerous questions and myths that swirl throughout the realm as to their origins. See, Ronn is far too well-read and intelligent to be of mundane or mortal origin. They have accrued such a wealth of knowledge and capacity to teach others that most merchants, even nobles, covet their abilities and - especially - their satchel

Consequently, They have learned to ensure their own safety by enlisting the help of adventurers and mercenaries to protect them. Their guidelines to their protectors is to maintain distance as not to gain unwanted attention, to permit free movement, and to not scare off the inquisitive; whom they welcome with open arms.

Ronn has a serious wanderlust, rarely staying in one town, city, or village for more than a week or two to spread their love of knowledge and accumulate even greater wealth

Asexual and, in fact, without any noticeable confirmation of biological sex, they request that others use a variety of always changing pronouns when addressing them

PERSONALITY

While there is little known about their origins, Ronn *appears* as a middle-aged adult human male. Yet there are numerous questions and myths that swirl throughout the realm as to their origins. See, Ronn is far too well-read and intelligent to be of mundane or mortal origin. They have accrued such a wealth of knowledge and capacity to teach others that most merchants, even nobles, covet their abilities and - especially - their satchel

Consequently, They have learned to ensure their own safety by enlisting the help of adventurers and mercenaries to protect them. Their guidelines to their protectors is to maintain distance as not to gain unwanted attention, to permit free movement, and to not scare off the inquisitive; whom they welcome with open arms.

Ronn has a serious wanderlust, rarely staying in one town, city, or village for more than a week or two to spread their love of knowledge and accumulate even greater wealth

Asexual and, in fact, without any noticeable confirmation of biological sex, they request that others use a variety of always changing pronouns when addressing them
