Background Story

Walther Humphreys is the aged, alcoholic and addle-minded former mayor of the town/city. He is also a oft used pawn of the Dumas Family. Back while he was still the mayor, Basil Dumas infected Walther with his Lycanthrope in order to gain control over him. The mayor's dirty little secret allowed the Dumas' to get things acomplished that they wouldn't have been able to without his help, including installing Jedediah into political offices. In the interceding years, Humphreys has retired from public life and taken up drinking full time, though still gets trotted out from time to time by the Dumas family for political showmanship. He has gone rapidly downhill since his retirement and can often be seen wandering around town drunk and lost. Once a month on the full moon, Walther turns into a wolf and joins Basil Dumas' pack in earnest. He has also been known to change in situations of high stress, but no one has ever survived that long enough to let his secret out, though there has been some rumors. In truth, his lycanthrope is likely the only reason he is still alive.
