## ROLEPLAYING

### Introduction

Mamoon will be found near graveyards and crypts preparing to infiltrate them to sacrifice the bodies to her God(dess);

### Appearance

Deep, sunken silver eyes. Closely cropped white hair beneath a silver circlet. Lithe for a Duergar and almost sexy, if it weren't for her nearly demonic presence. Wears a necklace of petrified elf fingers.

### Expressions

"The forgotten Ones will rise again, by my hand"; "Shall you look into the abyss of the mouth of the Forgotten?"

### Mannerisms

Rubs the tips of her fingers together, almost as though preparing magic. Relatively inactive gesticulation explodes into wild swinging of arms and broad facial expressions, almost as though bi-polar or partly possessed.

### Motivations

To bring the pantheon of old Gods back to power. She seeks bodies of the dead to sacrifice to her pantheon.

### Passions

Necromantic magicks. Any insect that tunnels. Tunneling. Spelunking.
