## BACK STORY

Llewellyn Broadlore is a man, even though he's spent most of his life travelling and collecting lore. As a life of an elf in the city, he is always bringing in new historical volumes and become distasteful of lengths about arcana. To his own reward, it's own reward.

During his travels, he collected a number of toms and scrolls, which he keeps under the shop. At one point, he was heavily injured, and then, they were expensive.
