ROLEPLAYING

Introduction

Glotys loves to spread word of the
quality of her honey products. She
keeps busy throughout the market
place selling her edible honeys in t
forms of jarred honeys, jellies, crys
and so forth, partnering with baker
chefs, and candymakers. Glotys is
seeking rare flowers to plant within
aviary range to produce even more
formidable honeys.

Appearance

Relatively lean and gaunt for a dwarf,
tangled black curls and chin beard;
wears firm leather beekeeping unifor
at nearly all times; bright green eyes
Always wears fresh flowers in her ha

Expressions

"Can't make honey without getting
stung!"; "My money is on the little t
that make the world what it is. Bugs
crawlies, moss, and pebbles"; "Keep
outta the loop. I got tons to do alrea
"Bugs are far more organized than n
peoples";

Mannerisms

Often scratching herself or applying
ointments to bee stings. When she
smiles or laughs, which is often, Glot
covers her mouth childishly.

Motivations

Glotys is driven to discover new and
exotic flora for her bees to pollinate
thus make different honies. She is al
quietly motivated to quell the conflic
between races. She's convinced her
that the answer is 'Honey'.

BACKGROUND STORY

<p>Glotys had a simple and
genuine upbringing by a
Dwarven family in love with
the wilderness. They lived
in a small village on the
outskirts of the great hill
Dwarf Empire of Ualen [any
major Dwarven Empire]
renown for their generosity
in supplying the rest of the
realm with forged goods,
gems, and precious ores.
Her peoples' passion for
what wealth and goods lay
within the hills did not
appeal to her. Instead,
Glotys took a liking to the
nature above ground. The
blooming of flowers and
how their pollination by
bees rejeuvenated the life
that flourished above
ground.</p><p>Her
passion for bees was so
profound that as she
learned more and more
about the ecology of her
surroundings the busy little
insects were drawn to her.
Her hard work and staunch
dedication to learning more
of her surroundings were
rewarded with certain
magicks that enable her to
communicate with the tiny
pollenators and call on
them for help. These
moments inspired her to
begin an endeavour to
provide housing and even
greater love and support to
these important
components of the
ecosystem.</p>
