Special Equipment

- {"Gloves of Fast Draw - c teleport any item on you person to your hand. Attunement may be necessary. Grip the item you want to fast draw. H them the way you want them to appear in your hand and say the comma word 'remember'. Any ti after an item has been attuned it can be reflexiv teleported to your hand. Note"=>"The item must on your person for this t work."}
- Contraband Concealment Container - When this ite is created the creator selects a material (spice, coin or any other munda material) and a command word. The container has seemingly endless sourc whatever mundane obje selected, though it deteriorates from existe within a day of being removed from the container. When the command word is spoken and the container is opened, it reveals

appear in your hand the command word 'remember'. Any time an item has been a can be reflexively to your hand. Note item must be on yo for this to work."}

- Contraband Concealment Container - When the creator created the container material (spice, coin) other mundane material a command word. The container has a seemingly endless source of mundane objects is though it deteriorates existence within a container. When the command word is spoken the container is opened reveals completely contents. Stored in extraplanar space, container may store amount that would sense for the size of container, and then by shutting the container, the bag will store the contents away until the command word is spoken again.

Combat Tactics

Glem is quite courageous, but not foolhardy. He knows his limits. He will use his psionics to disorient opponents in order to calm a situation or make space to flee. If pressed, he will try negotiating before combat.

Actions

Dagger | Off-hand Dagger.

Factions

Under four feet tall. Rusty skin and short Caesar cut. Well-kept leathers. Multiple scar cases adorn his person.

Expressions

"Can't be found when you're nobody in particular"; "How many lives have you already lived?"; "Plain sight? Overrated."

Mannerisms

Obsessed with documents. Pinches the bridge of nose while thinking. Shuffles through pockets & cases. Whispers to self.

Motivations

Glem hopes to rewrite portions of history and the roles of its players.

Passions

Identity and identification processes. The possibilities of the mind to create a self.

Secrets

completely different contents. Stored in an extraplanar space, the container may store any amount that would make sense for the size of the container, and then by shutting the container, the bag will store the contents away until the command word is spoken again.
