BACKGROUND STORY

Like most of his kind Goronk fin his identity by proving his mart prowess. Those who don't or wo fight are weak in his eyes. He doesn't trust magic users, he se as a crutch and believes that martial weapons are the only w go. He's fairly easy to barter wi for his services as hes more concerned with building his reputation as a fighter than he with the money side of things. I completely unconcerned with the moral side of his profession and just as happily work with raider raiding a village as he would fighting bad guys, as long as he gets to fight
